Student Teaching

Bloomington Normal Barber College was established in 2012 as the first barber college in McLean County. I am humbled by and take great responsibility in helping establish and grow the professional barber industry. I'm honored to be able to give back to a community I've lived in for over 20 years. Bloomington Normal Barber College provides an avenue for people of all ages and walks of life to obtain a professional trade as a licensed barber. Students are prepared with a curriculum that provides both practical and theory education in barbering, preparing each student to pass the state board of professional regulation barbering exam. This will prepare each student to achieve success in a profession that offers flexibility and unlimited rewards, both personal and professional.

CASSIUS CRITTENDON,

OWNER/INSTRUCTOR
